WASHINGTON.

Naval Affairs—Watnough's Nomination Rejected.

Grant Retired—Ditto Rucker—A New York Pressure—Schurz as a Lobbyist—Kirkwood's Land Decision.

Associated Press Dispatches.]

WASHINGTON, Feb. 23.- The Senate Committee on Naval Affairs this morning voted to reject the nomination of Watnough to be Paymaster-General of the Navy and Stevenson to be Pay Director. Some days ago the committee agreed to an adverse report on Watnough, but held it back in order to give the President time to withdraw the nomination if he saw fit, and several members of the committee waited on the President and advised him of this action. The committee waited until to-day, and not receiving any intimation from the President as to his purpose, they formally adopted the adverse report and ordered it to be presented to the Senate. The nomination of Stevenson was then taken up and a motion to report adversely adopted.

A NEW NAVY.

The Committee on Naval Affairs have agreed to recommend an appropriation of $10,000,000 to begin the construction of a new navy.

RESIGNATION AND APPOINTMENT.

General Rucker, lately appointed Quartermaster, was placed on the retired list to-day and General Rufus Ingalls appointed to the vacancy.

IN FAVOR OF WILSON.

The Senate Naval Committee agreed to a favorable report on the nomination of Theodore Wilson, of New York, for Chief of Bureau of Naval Construction.

BAYARD'S SUBSTITUTE.

In the Senate Bayard has offered a substitute for the bill to retire Grant, providing a pension for all ex-Presidents, equal annually to one-fourth of the amount of his annual pay while President.

GRANT RETIRED.

The Senate passed the Grant retirement bill by a vote of 40 against 17, and adjourned without determining what bill shall be next taken up. Several motions in behalf of the immediate consideration of various measures, including one earnestly urged by Miller, to take up the Chinese bill, being still pending.

ARTHUR CANNOT RESIST.

It is rumored that the nomination for Supreme Court Judge will be made to-day or to-morrow, and that it will be a New York man. It is said that the President has at the same time decided to nominate Senator Edmunds, but that the pressure from New York has been so great he cannot resist it.

LOBBYING FOR THE N. P. R. R.

Ex-Secretary Schurz arrived here to-day. It is understood that he is here to assist the Northern Pacific lobby in its efforts to quash the measures pending in Congress for the forfeiture of the lapsed grants.

ASKING FOR AID.

There is more truth than is supposed in regard to the destitution in the South. Congressman Dunn, in accordance with numerous petitions, has introduced a bill asking for aid. The bill was referred.

GENERALLY OBSERVED.

Dispatches indicate that Washington's Birthday was generally observed throughout the country.

CALIFORNIA LAND DECISION.

Secretary Kirkwood has rendered his decision in the El Sobrante case of California, limiting the grant to lands lying between the ranches of San Antonio, San Pablo Acalance and the Laguna de Los Palos Colorados, in the sense of being surrounded, or partly surrounded, by them. The survey does not include any part of the ranch of La Boca de la Canada.

NOMINATED.

The President nominated Col. Rufus Ingalls, Assistant Quartermaster General, to be Brigadier General and Quartermaster General.

Cannon-Campbell Once More.

NEW YORK, Feb. 23.—The Mail and Express' Washington special says the House Committee on Elections will take note to-morrow on the disputed election case between Cannon and Campbell. The following points have been agreed upon and will be reported on that day to the House. First, that the minorities never can elect; second, that Campbell is not entitled to a seat; third, that Cannon, having received a majority of all the votes cast, should be given a seat unless disqualified by some constitutional objection; fourth, Cannon, by admitting that he lives in polygamous relations, thus violates the laws, and not being a constitutional officer of the government, like a member of Congress, but simply a delegate from a Territory, holds his place at the will of Congress; fifth, that the Committee, intending to notify the citizens of Utah, in spite of the admitted citizenship of Cannon, that polygamy will not be recognized in the territory of the United States, report that he should be excluded from his seat in the House.

IN DANGER OF STARVATION.

In the House Chalmers stated that in consequence of the overflow of the Mississippi river, a thousand colored persons were starving, and introduced a bill for Government aid to the sufferers. Referred.

Arrival of Treasure From the Jesus Maria Mines.

Railroad Work Progressing Rapidly—Arrival of Ships with Rails and Ties—An Old Resident Robbed.

Associated Press Dispatches.]

TUCSON, Feb. 23.—A Star special, dated Guaymas, Feb. 16th, says: By the arrival of Mr. Hepburn, from Pinos Altos, news was received from that part of the country to January 31st, no Indians and cowboys were captured. The report was proved to be false. With Mr. Hepburn came also Charles Conant, from Jesus Maria, who reports mining in that region flourishing. Messrs. Hepburn and Conant brought thirty armed Nuzos with them as a convoy to $80,000 in treasure from the Pinos Altos mines. Mr. Hepburn will return with the same escort in a few days.

MINES AND MINING.

Mr. Derry, agent of a New York company, is in town to-day in search of copper property.

Geo. Good, Superintendent of the Minas Prietas, came in the day before yesterday with some $45,000 from that mine.

Mr. Gibson, general manager of the Clarence King mines in this and adjoining States, is here also and will go inland in a few days.

The Newborn brought fifteen Chinamen, who will work for the Pinos Altos company.

The old steward, Mr. Beales, either walked overboard or threw himself into the sea the fifth day out. It was night and the last seen of him he went to the water closet.

PICKED UP AT SEA.

The steamer brings Capt. McArthur, of the ill-fated Milton, picked up at sea opposite Encuada, a small point above Magdalena Bay. The party consisted of the Captain, his wife, one child, the first and second officers and three seamen. They had been some sixteen days without food or water. One of the Captain's children and two sailors died on the sea. One of the rescued party also died six hours after they got on board the steamer. The Captain's wife gave birth to a child this morning on board the Newbern. They will return on her to San Francisco.

SHIPPING NOTES.

Arrived—Mary L. Chapman from Antwerp with iron rails, 113 days. Kate Winkleman, 24 days, from San Francisco, with ties. Newbern and the German bark Professor. Sailed—The steamer Corvette Juarez for Mazatlan for coal. Steamer Corvette Mexico, Galen, commander, for Mazatlan. The Newbern takes about $150,000 in treasure this trip.

A RAILROAD BOOM.

Railroad matters are booming, as the arrival of ships with rails and ties prevent any suspension. The turn table and side track at Carbo, the new station, were completed to-day.

Work on the railroad is now going on some fifty-two miles from Hermosillo. So soon as they reach thirty miles this side of Magdalena regular trains will connect there with the Tucson stages.

ROBBED.

Francisco Lamarque, an old resident of this place, while absent at the club, had his house broken open and eleven thousand dollars taken. It was his net earnings for the last ten years. No clue has yet been obtained to the robbers, though evidently done by some one who knew the premises.

Boiler Explosion.

PITTSBURG, Pa., Feb. 23.—A boiler at Byer's rolling mill exploded this morning, wounding three men, one fatally.

Pacheco has introduced a bill in Congress for the appointment of a Collector of the Port of Wilmington. While it is notorious that there is nothing but an open roadstead at Wilmington, still the number of vessels touching there greatly exceeds that of San Diego Bay, which has a Collector. Los Angeles claims that about 300 vessels anchor at Wilmington during the year. If this is true, it is a tardy act of justice to appoint a Collector at this period. What San Diego will do with railroad connections remains yet to be seen.—S. B. Index.

LOS ANGELES DAILY TIMES.

THE LOS ANGELES DAILY TIMES will be sold on all the trains of the Southern and Central Pacific Railroads, and on the Atchison, Topeka & Santa Fe and Texas & Pacific roads.

The TIMES can also be commanded at the newsstands of the Palace and Occidental Hotels and Russ House, San Francisco.

Arrangements are now being perfected to have the TIMES placed in the reading rooms of the leading hotels in this and the Eastern States.

THE TIMES office is connected with the telephone system of this city, and those desiring to advertise in or subscribe for this paper can do so by this means.

WITH THE INVENTORS.

England has now turned out a new torpedo boat that has a speed of twenty-six miles per hour—the highest rate ever attained by a vessel. She is but 100 feet in length, and has engines of 500 horse-power. She has a pair of compound engines, and a boiler of the locomotive type, and a two-bladed screw. She is fitted with two tubes in the bows for discharging Whitehead torpedoes. This style of vessel is to supercede the unwieldly iron clads, and the contrivances that foreign nations have been getting up ever since the Merrimac and the Monitor had their fight near Fortress Monroe, must now go to pot-metal, for in the line of unwieldy mountains of iron and steel plates, "Othello's occupation is gone."

Now that the phylloxera is forcing the wine-makers of France to the wall, one M. A. Deluid insists that an acceptable substitute for the juice of the grape is found in a variety of red beet root, which he says will in time replace all that France has lost in the vine. Beet roots produce alcohol of a superior quality and when its pulp is treated like the must of the grape, produces an equally luscious beverage. California may store up this knowledge but has no immediate use for it.

A Professor Obernien proposes to prevent such disasters as the Vienna holocaust. The plan is to have hemp cords stretched across the stage or places likely to take fire, which cords when burned, will drop weights which will immediately strike a fire alarm, drop a fire-proof curtain between the stage and the auditorium, open a large ventilator in the roof and turn on water from a reservoir immediately at hand.

The present time between New York and London for mail service is 9 days, 20 hours, 45 minutes. A new project is to land steamers on the outside of Long Island, and connect with the metropolis by rail, and thus make the trip in 7 days, 5 hours and thirty minutes. Another proposition is to put fast steamers on the ocean, and with a speed of 20 miles per hour reduce the time to 6 days, 13 hours and 30 minutes.

M. Ader, a French inventor, has done a very clever thing in investing a trumpet formed attachment to a telephone receiver whereby the sound is so much increased in volume that the present method of intent listening with the instrument to the ear may be avoided and conversation be carried on with something of the ease of private conversation in the immediate presence of the participants.

The town of Godalming, Surrey, England, is lighted by seven electric arc lamps for the streets, and for in-doors three Swan's lamp which is a carbon within an air exhausted globe affixed to lamp posts. The power for turning the generator is the current of the river Wey.

A steamer has been built on the Ohio to be used on the upper waters of the Tennessee to gather and grind tan bark which is to be shipped in kegs to England. The steamer is provided with special machinery for grinding and compressing the bark.

Dr. Khotinsky, a Russian scientist, has improved upon the Drummond light so as to produce a beautiful illuminant at reasonable cost. He prepares oxygen from perman ganate of potash, and delivers it in a condensed state to dwellings by wagons.

A Montana man has patented a horse shoe to relieve the feet of horses from the jar or shock of traveling on hard or paved roads. The invention consists in a flanged calk and rubber block combined with a recess shoe.

The construction of the proposed tunnel under the English Channel between England and France, has been undertaken by the Southeastern Railway Company, and will be pushed to speedy completion.

And now the St. Lawrence river at Montreal is to be tunneled. The dimension of the tunnel is to be twenty-six feet wide, and twenty-three feet high, and 14,980 feet in length, or nearly three miles.

An Oregonian has patented a new grain header, the operation of which removes the head of the grain and leaves the whole stalk standing.

An important announcement is made that Silas G. Austin, of Boston, has invented a sash fastener!

What is the difference between an old tramp and a feather bed? One is hard up and the other is soft down.

MORE CANDIDATES.

Hon. W. J. Hill, editor and proprietor of the Salinas Index, and at present a State Senator, is a candidate for Congress in this District. He is spoken of by the press as having many warm friends. Evidently this district is not going to want for candidates.

S. D. Waterman, of San Joaquin county, is a candidate for State Superintendent of Public Instruction.

Hon. J. E. Hale, of Placer county, will be the candidate of that county for the Supreme Bench.

"THE Southern California papers still hang out the hope that there will be plenty of moisture before the season is over. They say that the "oldest inhabitant" asserts that when the mountains are packed with snow, as they are at present, spring rains are always to be depended upon. The "oldest inhabitant" is generally an old humbug in the matter of weather predictions. His observations rarely tally with statistics, and his prophecies are as unreliable as those of an old-fashioned almanac."—San Francisco Chronicle.

Well, now, there's a good deal of congealed truth in that. The TIMES desires to inform its metropolitan cotemporary that behind this rosemary lined cloud of pluvial predictions, those truly sagacious Southern Californians who are possessed of both foresight and hindsight are at work like beavers preparing for a dry year. Some of them are so sparing of the precious fluid that they never drink a drop, but save it all to quench the thirst of the parched land. The drouth can never ruin a country settled by such a thrifty set of grangers as that.

To be up with the prevailing style it is necessary to have a chatelaine watch. Platt & Page keep them.

Thirteen cases of eggs and eight of butter were shipped to New Mexico by the Grange Store yesterday.

The funeral of F. Reuter, who was killed at Orange last week, will take place at 2 P. M. to-day in Santa Ana.

Those chatelaine watches at Platt & Page's have fine movements and are perfect timekeepers. Call and see them.

A good reliable turn-out at a moderate price is an important item in this sunny clime. Examine DeTurk's prices in "New To-day."

Mr. S. Speedy has purchased a house in East Los Angeles and is preparing to enlarge and otherwise improve it, with the intention of making it the family residence.

Officer Juan Edson, of San Jose, came down yesterday morning for Dick Martin, who is wanted in that place for horse stealing. Edson left last evening with the prisoner.

The Spring street Confectionery is a good place to procure fresh, wholesome candies, cakes, pies, tarts, etc.; also a cup of tea, coffee or chocolate. See card in "New To-day."

A ladies' pocket book was found yesterday by R. E. Ingram of Lankershim's mill, and can be recovered if the owner will call at the house adjoining the mill and prove property.

The TIMES is indebted to the Natural Science Club of the High School for an invitation to be present at their second social, to be held this evening at Good Templar Hall.

It will be noticed by the county apportionment of the school fund that Los Angeles gets away with the largest amount of any county outside of San Francisco and Alameda counties.

W. M. Cummings, the livery man, who has earned the soubriquet of "Happy Jack" from his always happy mood, doesn't wish to be confounded with that other fellow who calls himself "Happy Jack," and who was arrested for larceny a few days since.

The Wallace Sisters and Fifth Avenue Comedy Company Combination will appear as per announcement elsewhere, on Wednesday and Thursday evenings of next week. They have just made a very successful trip through Arizona, and the press has given them universal praise.

As per announcement elsewhere R. L. Couts has succeeded C. A. Wilson as agent for Southern California of the New Wilson Oscillating Shuttle Sewing Machine. The machine is a very popular one, and everybody should call at 26 Spring street and examine them before purchasing elsewhere.

The imposing building of Heinsch & Kuhrts costing $14,000, and Ferguson & Rose's costing $16,000 will add greatly to the elegant appearance of that portion of Main street. With the completion of another fine building adjoining the others by Hellman & Childs to cost $15,000, that row of buildings will compare favorably with any business block in the State.

PERSONAL MENTION.

Rev. Isaac Jacobus, pastor of the Westminster Congregational Church was in town yesterday. He reports that the last rain has already made a great improvement in the appearance of crops, new settlers are constantly arriving and the people are well pleased with the outlook.

COMING.

The Famous Bianchi-Montaldo Opera Troupe Next Month.

On the 7th of March the citizens of Los Angeles may expect a musical treat equal to the Perry concert of last week. Two acts of the opera "Il Travatore" will be produced at Turnverein Hall in regular costume with Madam Jemma Tiozzo, contralto, in the leading role, supported by V. Antinori and other members of the Bianchi-Montaldo Opera Troupe which has been so highly spoken of by the musical critics of San Francisco.

The Los Angeles favorite, Miss Mamie Perry, will also sing which is a guarantee that the concert will be a success. Madame Tiozzo is one of the best contralto singers on the lyric stage in the United States. Signor Antinori is manager of the Bianchi-Montaldo troupe and thoroughly understands the business.

A Pasadena Social Dance.

The following persons enjoyed a social dance at the School House Hall, Pasadena, Wednesday evening: Misses Jennie Banbury, Jessie Banbury, Hanna Ball, Elma Ball, Mattie Ball, Clara Ball, Kate Browne, Velma Browne, Nellie Phillips, Florence Royce, Belle Eaton and Mrs. Bryson; Messrs. C. W. Winston, W. Martin, Frank Phillips, Will Bryson, J. M. Bryson, Geo. P. Clark, W. B. Clapp, S. M. Campbell, W. H. Townsend, Mr. Horne and Geo. Turner. During the evening those present formed themselves into a Social Club, to give dances every month.

THE DEAD.

A Thoughtful Discussion of a Serious Subject.

A Suggestion as to the Care of the Bodies of the Dead Previous to Burial—Erroneous Customs.

The final disposal of the bodies of decedents has ever occupied the minds of surviving relatives, as well as the action of communities and governments. The Egyptian practice of embalming their dead was in a sanitary point of view, with possibly the exception of cremation, the best mode ever adopted by any people.

The labor expended in the preparation of the materials for the embalming of a body by the Egyptians was very great, so great indeed that it is a wonder how Egypt bore the burden of so much waste of labor.

The burying of the dead, and especially of loved and revered ones, in the cold damp earth is so repugnant to every refined sensibility that nothing but the increasing strength of custom, as it has been transmitted from barbaric ancestors down through unnumbered generations, could hold enlightened christendom in bondage to a practice so heartless.

From time immemorial friends, relatives and governments have labored and spent large sums of money and precious things to enrich the tombs of the dead, to excavate and to construct imperishable sepulchres in which they should repose or to erect costly and magnificent monuments over their remains.

While this has been done until the face of the earth is covered with these mementoes of the dead, no place has been provided in which the bodies of the dead might safely rest during the time between death and burial.

The course of events in a dwelling is checked and suddenly changed in a sorrowful direction when death seizes one of its inmates. The undertaker or friends or relatives are occupied in the unpleasant duty of clothing and preparing the body for burial. The body remains in the dwelling, exhaling and filling the house with deleterious and offensive effluvium, pernicious to the health and disagreeable to the senses of the indwellers. To escape these discomfortable consequences, resort is frequently had to hasty interments, whereby undoubtedly in many more instances then have become known, a living soul, in an insensible condition, has been entombed, there to awake and to suffer the horrors of dying, clothed in the habiliments of death, alone in the cold, dark grave, with no soothing sound to mitigate, nothing but frantic struggles and ghastly moans to enhance its misery.

Why cannot a community which builds and supports large halls, temples, churches and theatres, for the welfare and the benefit of the living, and which expends vast sums of money in erecting monuments for its dead, build and maintain a resting place for their dead, during the brief space of time intervening between death and burial? Why not have a building properly constructed with a sufficient number of rooms suitably furnished, to which the dead could be carried as soon as life is extinct, where the body could be robed and made ready for burial, where friends and relatives might watch over their dead, undisturbed by household duties? And here the dead might remain, without endangering the health of the household, until signs of decay should appear, so as to avoid the possibility of burying the undead.

Customs, although they may be of little utility, and attended with much expense, when followed by a people for many generations, become so interwoven with their habits, that it is difficult to eradicate them, or to supplant them by better customs, even when the great majority of the people recognize the expediency of the change. It is not, therefore, to be supposed that any community will suddenly provide and use resting places for their dead; but it is believed that if suitable and properly furnished rooms were provided for that purpose, there are some who would not fail to use them if death should enter their dwellings.

It would seem probable—nay, almost certain—that if such resting places were provided they would soon become of general use in all cities and villages.

J. J. WARNER.

Only One Glass.

Night before last Peter Morris, a countryman, started out on a lark. His first drink staggered him, or the price he had to pay for it did. He went into a Spanish saloon on Main street, where one of the softer sex attends to the wants of the thirsty. He took his glass of beer and handed over a ten dollar gold piece, expecting to get the change; but she couldn't see it in that light. So yesterday he called on Judge Adams and swore out a complaint for her arrest, charging her with swindling.

A Tartar Thumps a Policeman.

A woman named Lizzie Lent, alias Elizabeth Espitallier, got mad at one of the police officers the other day, and went for him in the pugilistic style. She hit him two or three times and skipped in her house. Yesterday she was arrested and arraigned before Judge Adams for battery. She pleaded not guilty, and her trial was set for next Monday afternoon at half past one o'clock before the Court and a jury.

A Horseback Party.

About twenty young ladies and gentlemen of Pasadena took part in a horseback party which started about 9 A. M. Wednesday morning, and after spending part of the day in Eaton's canyon, proceeded to ride through the Mission and Alhambra, and thence home, where they arrived at about 5 P. M. The party was accompanied by a team well provided with eatables and—ice water, and a most enjoyable time was experienced.

To Correspondents.

It is an inexorable rule with us not to publish a communication without the author's name is known to us. The name need not be published to the world, but it is required as a guarantee of good faith. A gentleman sends us a communication signed "Orange," in reply to "Reporter," which we would willingly publish, but he has omitted his name—perhaps accidentally. Will the gentleman please forward name?

The Graveyard Dog Dead.

Mrs. Rosza's worthy efforts to resuscitate the dog of Evergreen Cemetery notoriety, that refused to leave its master's grave, have proved unavailing. The poor dog never fully recovered, although he was doctored and cared for as tenderly as a child, and yesterday he went to seek his old comrade in the spirit world.

THE SHORB CASE.

Judge Hunt's Decision on Application for Habeas Corpus.

In rendering the decision in the writ of habeas corpus in the Shorb case, Judge Hunt said:

The petitioner seeks, first, his discharge from imprisonment upon the ground that he has been committed upon a charge of murder without resonable or probable cause; and second, praying to be admitted to bail. First, the committing magistrate held the prisoner upon the evidence of several witnesses upon deposition. I have examined without commenting upon the testimony which from its nature is not entitled to publicity. I consider that the petitioner is not entitled to be discharged from custody.

Second, The Constitution of the State makes all offenses bailable except capital offenses where the "proof is evident or the presumption great." The Penal Code defines murder as "the unlawful killing of a human being with malice aforethought, and the "killing," in order to constitute murder in the first degree, must have been willful and premeditated.

In this case the evidence fails to show that the accused *intended to kill the deceased*, and without such proof a capital offence cannot be established against him.

In the case of ex parte Wolf, the Supreme Court of this State held that upon a charge of this character when a willful and premeditated intent to kill is not established, the prisoner is entitled to bail, and bail upon that application was fixed at the sum of $8,000.

It is therefore ordered that the petitioner be admitted to bail in the sum of eight thousand dollars.

DON JUAN FORSTER.

Solemn Scene at the Catholic Cathedral Yesterday.

Yesterday morning at ten o'clock the obsequies of Don Juan Forster took place. The remains arrived here day before yesterday and a large number of friends of the family from San Diego accompanied the body. On arriving here the remains were taken to the residence of Mrs. Sepulveda on Alameda street, where they laid in state until nine o'clock yesterday morning, when the procession moved to the Catholic Cathedral on Spring Street. The ceremony was very imposing and lasted until almost eleven o'clock.

While mass was being said a little linnet came in the door and after flying around the building several times lit at the foot of the coffin. It made two or three circles around the coffin and lit on the top of the organ where it remained until the procession started.

The funeral cortege wended its way to the Catholic burying ground and the body was placed in the vault of the Pico family. The deceased was well and favorably known all over the State and will be mourned by his family and numerous friends.

TWO PER CENT.

Two Champions of the Manly Art Have a Set-to on Spring Street.

There was a lively fight down on Spring and First streets yesterday afternoon about four o'clock. There is a well-known character in town called by the boys "Two per Cent."

Now Two per Cent. has a way of his own for doing things, and if he can't get what he wants, will fight for it. He got on the war path and looked up a man named Mahlhorn and went for him after the latest two per cent. style. That is, he walked up and knocked Mahl' down with his left hand doubled up. But Mahl' did n't turn his left cheek according to commandment. Not much. He was insulted and wanted blood. So he sailed in and wiped the ground up with poor old Two per Cent.

Officer Roley acted as sponger and when he thought the fight had lasted long enough he conducted the two champions down to the police station and locked Two per Cent. up. Mahl paid his twelve dollars and departed feeling better, and the other fellow will appear before Judge Adams to-day.

Orange Shooting Affray—Reuter the Aggressor.

The Pasadena Rifle Team—A Dance at the School House—Personal—The Farmers Hard at Work—Crop Prospects.

ORANGE, Cal., Feb. 18th.

Our quiet country village has been greatly shocked by the occurrence of last week. The following is the account given by one who observed the whole affair: Fred. Reuter of Santa Ana was standing near the blacksmith shop formerly owned by Mr. Rubottom, as Prof. Lewis and T. B. Hulse drove past in a wagon. Reuter called out to Hulse to stop and settle that matter, they having had some difficulty before. Hulse told him that he was in a hurry and could not stop, but Reuter called to him again to stop, whereupon he stopped, got out of the wagon and came directly in front of the shop and stood in the middle of the street, saying, "Let's talk this matter over." Reuter, having divested himself of his coat, said, "I talk *nothing* with you," but taking a bottle of whiskey from his pocket turned round and gave it to some of his friends to drink. Hulse called out, "Yes, I think you'd better take something to keep up your courage." Reuter, saying he would stand this no longer, started toward Hulse. There being a pond of water standing between them, which Reuter must go round, Hulse had plenty of time to warn him not to come near him, which he did either two or three times, and at last told him if he touched him he would hurt him; but Reuter, fearing nothing, rushed at him and caught him by the throat with one hand and by the hair with his other hand. Hulse found his pistol and fired it at him, the ball taking effect in the region of the heart. Hulse got into the wagon again and went to Santa Ana and gave himself up. He is a quiet, peaceable young man, of moral, temperate habits, and owns one of the finest orchards in this neighborhood.

EYE WITNESS.

The Pasadena Rifle Team had a shoot at their range in the Arroyo on Washington's Birthday, Mr. Hallock securing the privilege of wearing the medal for the ensuing week, by a score of 42 out of a possible 50. The medal above spoken of is one procured by Mr. Hurlburt while East this summer, and is a very handsome affair, and one that one should well be proud of wearing.

A few of the young people enjoyed a social dance at the school house hall the same evening.

Our business houses, as is usually the case on legal holidays, were (not) closed.

Miss Wilson, of Chicago, who has been stopping at the hotel for a short time, returns to her home the latter part of this week.

Our farmers are still hard at it putting in grain, every available foot of unimproved land being used for that purpose.

That part of the Mutual Orchard tract owned by the Messrs. Dunsmore has changed hands, and is now owned by F. J. Gilmore, formerly of the Dollar Store. We understand Mr. G. will immediately offer the same for sale in tracts to suit.

W. E. B.

Somebody Else's Business.

Mr. Robert Kilgour, of Toronto, Canada, manufacturer and wholesale dealer in paper and paper goods, is in the city on a tour of inspection. It is to be hoped that those business men who have the interests of the city at heart, will make it a point to interview him at the Pico House, where he is stopping, and acquaint him with the excellent advantages possessed by Los Angeles as a distributing center, and the certainty of success for any live, enterprising man who will engage in the business of manufacturing and handling paper and paper goods. As long as the Chamber of Commerce does not make any effort to secure new industries of the kind every enterprising business man should feel his individual responsibility and act, not wait to see what others may do, or not do. Wake up and show you have an interest in the welfare of your beautiful home.

The Coming Rain.

Old Probabilities' prospective pour prolongs the period predicted for its promised appearance somewhat, but nevertheless the prospects are good for the perfect redemption of the promise. Private dispatches state that it was raining hard at San Francisco last evening and the clouds had reached Santa Barbara, but it seemed too cold there to rain. The storm continues to work this way, and at this writing, 3 A. M., the clouds are thick and murky, with every indication of a shower before many hours. We are ready for rain now to try our new rain gauge. It is a thimble and it is set conveniently under the eaves, and we propose to see that the next shower is correctly measured.

O'Connor.

Desmond's Hat Store on Main street, Wangeman Bros., and P. Lazarus' on Spring street also secure seats at Lazarus.' Tickets fifty cents and reserved seats the same.

The Weather Report.

Observations taken by the U. S. Army Signal Service at 8.15 o'clock last night are as follows: Barometer, 30.09; Thermometer, 49; dew point, 40; wind, calm; 0 mile per hour; clear. Maximum thermometer, 63; Minimum thermometer, 37.

Nerve and Brain

TREATMENT.

—A—

CERTAIN CURE

—FOR—

HYSTERIA, DIZZINESS, MENTAL ANXIETY, LOSS OF MEMORY, WEAKNESS, SOFTENING OF BRAIN, PREMATURE OLD AGE,

CAUSED BY

OVER-INDULGENCE OR EXCESSES

—AND—

Diseases of the Nervous System.

This treatment is compounded from the Medical Properties of those foreign and indigenous plants which have the most

Direct and Powerful Action Upon the Genital Organs; Tonic Stimulant, Anti-Spasmodic Relaxant, Febrifuge and Nervine.

It has been THOROUGHLY TESTED, and is proved to be the Best, Safest and most Effective Treatment known to Medical Science for alleviating, controling and curing all forms of the disease above mentioned.

The treatment is purely vegetable—it contains no mercury, iron, cantharides, or any injurious ingredients whatever, and

Its use is in no case attended with the slightest danger.

Overwork of the Brain.

One of the greatest gifts to a man is a great intellect. The power of achieving is a mighty power. As says the poet, "The mind forges from knowledge an arch-angel's spear, and thus compels the world and sues for empire." Brain power is one of the mightiest forces in the universe. The men of brain are the men who conquer success. They always carry about with them the unmistakable indices of success. Such men are brimful of enterprise, activity and organizing power. They are the leaders and commanders among men. Such men, of necessity, use up a large measure of nervous energy. They live, as it were, on their principal. They exhaust the vital forces. Muscular activity and travel do not prove remedial, from the simple fact that they always take their brains along with them, and keep them at work on their favorite projects just as constantly as when in their offices at home. The brain and body are not rivals; they are copartners. It matters not how nor where a thinking man works; whether at his desk giving directions, or at the forefront of mechanical enterprise, actually handling the tools and appliances, his brain works all the same. The thinking man is never still. His business is to rule. His character is inalienable.

"For just experience shows in every soil,
That those who think must govern those who toil."

Now, the great question is how to reinforce and replenish these mighty workers whose brains are challenged to the uttermost and whose vital forces pay out the drafts made upon them in such large and rapid installments. What recreating process is there against the wear to which their daily life constantly subjects them? It is a vital question.

Nerve and Brain Treatment.

The world moves, and science moves along with it. Every year some new discovery is made which mitigates the ills of life and lightens the burden of human woe. Medical science is ever at work seeking to repair the damages constantly recurring to poor human creatures. What is better still, it is the aim of medical science to go ahead and prevent diseases altogether. This is its noblest aim. Of late years, the best thought of medical science has been directed toward the prevention and cure of nerve and brain diseases.

Probably in the entire range of remedial agencies of this character nothing has ever been presented to the public that has wrought such wonderful cures as has the nerve and brain treatment of Dr. E. C. West. It has come to be known all over the land as an unfailing specific for all kinds of mental maladies, from an aggravated headache to incipient paralysis. It has been tested by thousands upon thousands of sufferers, whose unbounded joy and gratitude could be given in voluntary testimonials from every part of the country.

THE RATIONALE OF THE TREATMENT.

Dr. West, in his treatment of the brain and nerves, proceeds upon the principle that the brain has its pathological anatomy, exactly as all the organs of the human economy have, and the pathology of the brain has its special series of symptoms, just as other organs have theirs. If all the varied disturbances of brain and nerve are not yet understood it is because the means of investigation are as yet imperfect. But Dr. West has made the subject a profound study, and by scientific analysis and experiments has discovered a remedy, which, by re-establishing the normal organic condition of the brain and nerves, restores their functions and brings them into a state of health and activity.

LOSS OF MEMORY AND HOW TO CURE IT.

It has been said that one of the surest signs of waning mental power is the loss of memory. This is often caused by overwork, and by some great and sudden affliction. We all cherish the bright jewels of memory. We delight to revive the dear old times, and in "our memories preserve and still keep fresh, like flowers in water, those bright and happy days." To any and all who feel that memory is failing we commend this marvelous brain and nerve treatment of Dr. E. C. West.

It may be asked how this remedy acts. We simply say, it has been compounded on the principle that a sound body is the foundation of a sound mind. Its primal work is to restore physical integrity. We too often exalt the mental at the expense of the physical. Yet it is a fact that the man who can best carry the burden of life looks well to the noble temple of the body. The mind does its best work when the machinery of the body runs without friction.

DR. E. C. WEST'S

Nerve and Brain Treatment,

While promptly correcting these terrible morbid conditions, is equally applicable to every kind of weakness to which clergymen, lawyers, students and all who follow sedentary occupations, or whose brains and nervous system are overworked, are peculiarly subject.

Horne & West

ELECTRO-MAGNETIC BELT.

THIS IS THE same belt which is now manufactured by W. J. Horne, and which he is extensively advertising as the W. J. HORNE BELT. This Belt was invented and patented by myself. Afterward I assigned one half interest in this Belt to W. J. Horne, which he now owns in common with me. This Belt has taken two premiums at State Fairs; but as I have invented another BELT, of double the power of the HORNE & WEST BELT, and much superior to it in every respect, and which I make and sell for ONE HALF the cost of the old Horne & West Belt, I will sell my one-half interest, in the Horne and West Belt cheap for cash.
